PROJECTS AND ACHIEVEMENTS

- **Americans with Disabilities Act (ADA) & WCAG Accessibility Compliancy Auditing Tool**
Automated Accessibility auditing tool for websites built using Deque's axe-core and Cypress, generating reports with ADA Compliancy violations, and remediation steps. *JUICE 2024 Pharma*
- **Automated SEO QA Validation Engine**
Crawls website with Playwright validating structured data, meta tags, canonical structures, alt text, and page hierarchy *JUICE 2023 Pharma*
- **Googlebot Emulator**
Python Script with Googlebot emulation producing image renderings displaying how the search engine crawler consumes your page weighing in on your website's rank. *JUICE 2023 Pharma*

- **Shift Left Testing with GitHub Actions** *JUICE 2023*
Developed (CI/CD) pipelines in GitHub Actions to run automated tests on push w/reports. *Pharma*
- **Test Automation Overhaul** *JUICE 2022*
Replaced 85% manual testing efforts transitioning to Cypress and Playwright automated test suites, reducing manual QA times by over 60% and accelerating release cadence by 30%. *Pharma*
- **Quality Assurance Department Buildout** *Small 2019*
Hired QA analyst interns, streamlined dev/qa cycles and relieved native app testing efforts from producers. Formalized QA processes, including test planning, and build automation. *Planet*
- **Producer of Disney and FanDuel Apps** *Small 2018*
FanDuel app achieving 500,000+ users within the first month and Disney app exceeding initial projections by 150,000+ downloads. *Planet*

TECHNICAL SKILLS

- **Programming languages** : JavaScript, TypeScript, Python
- **CI/CD Tools** : GitHub Actions
- **Cloud Computing Services**: Azure, Google Cloud
- **Testing Tools and Frameworks** : Cypress, Playwright, WebDriverIO, Selenium, Puppeteer, Espresso, XCUITest, Postman, Litmus, Zephyr for JIRA, Email On Acid
- **Agile Testing Techniques**: Unit, Integration, Smoke, System, Regression, Performance, Load Balancing, Exploratory, UAT Testing
- **Accessibility Testing Tools and Frameworks**: Deque's Dev-Tools and Auditor, Accessibility Scanner, TalkBack, VoiceOver, Google's Accessibility Testing Framework (ATF)
- **AI Tools** : Gemini Code Assist, CodeGPT, GPT-4
- **Agile Tools and Software** : JIRA, Confluence, Miro, Kanban Boards
- **Methodologies**: Shift-Left QA, Software Development Lifecycle, Testing Pyramid, Six Sigma
- **Operating systems** : Android, iOS, Windows, Linux, MacOS, Windows Subsystem for Linux
- **Analytics and Data Reporting** : Google Analytics 4, Google Tag Manager, Mixpanel
- **Miscellaneous**: Git, Unix Commands, Shell Scripting, Visual Studio Code, Android Studio SDK
